

Reefs & Wrecks - Semi Sub-Sightseeing

Estimated Investment Cost (Financing Needed):

US\$ 500,000

Email: jsorah2002@yahoo.com

Tel: (649) 231 2894

Mode of Investment: Partnership

Project: Private

Sector: Tourism

The objective of the project is to provide sightseeing tours on a semi sub glass bottom boat. The potential clientele are the thousands of tourists who disembark on Grand Turk on a weekly basis. It was observed that this type of business is operating successfully in the Cayman Islands catering for the cruise ship visitors. A similar business format will be applied since it would target the beautiful coral reefs in the TCI. The reefs around the Caicos bank form the second largest barrier reef system in the Western Hemisphere. It is estimated that 60 species of coral both hard and soft live on the reefs of the TCI and it is also the home for a variety of fishes.
